The FASTER (Fitness, Aging, Stress, TBI Exposure Repository) study collects data about cognitive, physical, and mental health in aging.

**Study participation includes 4 or more appointments to complete the following:**

- Paper and pencil and computer tasks to assess memory, attention, and language function
- Magnetic Resonance Imaging (MRI) to examine brain structure and function
- Fitness Testing, which requires balance, aerobic, strength, body composition testing, and a blood draw

You may receive up to $260 if you complete ALL study activities.

*If interested, please call (614) 688-0525, email FASTERstudy@osu.edu, check out our website at fasterstudy.org, or scan the QR code.*
