HGAP handbook provides support for small-scale growers on food safety

Developed by the Carolina Farm Stewardship Association, InFACT and OSU faculty across multiple departments, a new handbook published this past spring will assist small- and mid-sized growers to meet audit requirements for food safety certifications.

Eat more grasshoppers? InFACT-affiliated researcher awarded NSF grant to study impact of *chapulines* on rural Mexican economy

Professor of Anthropology and InFACT affiliate faculty Jeff Cohen and a team of graduate students are poised to study the impact of *chapulines*—how they affect the rural Mexican economy, gender disparities, sustainable farming and so much more—through a National Science Foundation grant.

Registration open for World Food Day events

InFACT, the Sustainability Institute (SI), University Libraries and the College of Food, Agricultural, and Environmental Sciences (CFAES) are hosting a three-day series of events on October 16-18 for World Food Day.

Events will highlight World Food Day's aim to promote worldwide awareness and action for those who suffer from hunger and for the need to ensure food security and nutritious diets for all.

*Register and learn more here*
"Privy 2" opening

The public installment of an InFACT Linkage and Leverage grant project on biosolids, co-led by InFACT faculty hires Forbes Lipschitz (Knowlton School of Architecture) and Nick Kawa (Department of Anthropology), opened earlier this month on main campus.

Stop by, take a load off and contemplate the waste stream.
