HAVE YOU HAD A CONCUSSION OR BRAIN INJURY?

We are recruiting for a new research study for which you may be eligible.

**What is the purpose of this study?**
- We are studying how the body’s stress reactions and brain activity relate to thinking skills after brain injury or concussion

**Participation Involves:**
- Completing an online survey
- Measuring your brain activity and vital signs during a series of memory and attention tests

**You May Qualify If You:**
- Have had a brain injury or a concussion
- Have problems with memory, attention, mood, or sleep since your injury
- Are 18-25 years old

Scan the QR code to complete our 5 minute screening survey

Participants will be compensated $100
