Buckeye Neurotrauma Lectures

“Physical and Cognitive Activity After Pediatric Concussion”

Ginger Yang, PhD, MPH
Principal Investigator, Center for Injury Research & Policy - Nationwide Children's Hospital
Professor, Pediatrics & Epidemiology

This presentation will:
1. Provide an overview of clinical management of concussions in children
2. Demonstrate physical and cognitive activity after concussion in relation to recovery
3. Explore clinically relevant strategies to prompt physical and cognitive activity after concussion

1 CME, Register:
